USE CASE NAME:	Place supplier order	USE CASE TYPE
USE CASE ID:	3.4	Business Requirements: <input checked="" type="checkbox"/>
PRIORITY:	HIGH	System Analysis: <input type="checkbox"/>
SOURCE:	Hands for dignity user requirements	System Design: <input type="checkbox"/>
PRIMARY BUSINESS ACTOR	Organization's Manager	
PRIMARY SYSTEM ACTOR	NONE	
OTHER PARTICIPATING ACTORS:	<ul style="list-style-type: none"> NONE 	
OTHER INTERESTED STAKEHOLDERS:	Product manager	
DESCRIPTION:	<p>This use case describes the event of the manager placing a supplier order once there is stock needed. The manager selects which product(s) needs to be ordered and selects which supplier he needs to order from once the product is selected. The manager contacts the supplier via email or telephone to place the order and enters it into the system once the order has been placed.</p>	
PRE-CONDITION:	Supplier must exist	
TRIGGER:	Organization's Manager wants to place an order.
